Experience

Coding Expert

Outlier.AI

2024-2025

- Developed and refined coding prompts to train and optimize Large Language Model (LLM) performance through RLHF.
- Analyzed AI-generated code for logic and syntax errors and provided the corrected solutions and debugging to improve the models accuracy.

Freelance 3D Design

YoungMinds

2023

- Modeled an original 3D mascot tailored for a mental health awareness campaign creating a library of visual assets optimized for the organization's website and social media channels.

Account Manager

De Telefoon Gids

2018-2019

- Facilitated digital transformation for clients, guiding them through the transition from legacy print to modern online platforms.
- Improved client business visibility on Google using SEO strategies.
